

Instruction Manual

Thank you for your purchase of a SEA&SEA product. For proper operation of the product and safe handling, please read the following instructions carefully before use. This manual should be retained for future reference.

Safety Precautions

Failure to heed the precautions listed below could result in serious consequences. To prevent injury or damage to yourself and/or others, please observe the precautions as they contain highly important information related to personal and product safety.

- ⚠ DANGER : Situations that involve a high risk of severe injury or death.
- ⚠ WARNING : Situations that could result in severe injury or death.
- ⚠ CAUTION : Situations that could result in property damage or personal injury.

⚠ DANGER

- Never attempt to disassemble, repair or alter the product yourself to prevent significant electrical hazard due to the high-voltage circuitry in the product. Do not heat the product or put it into a fire, this could result in explosion or fire. Unauthorized disassembling and/or modification could result in malfunction or flooding, and avoid product warranty. Take the product to a SEA&SEA authorized service center for repair or inspection.

⚠ WARNING

- Operate this charger only with the specified electrical voltage. Use with the incorrect voltage may cause malfunction or fire.
- Should you notice smoke or an unusual smell coming from the product, disconnect the power plug and take the product to an authorized SEA&SEA service center for inspection.
- Never connect this charger to an unspecified product. Doing so may result in malfunction or fire.

⚠ CAUTION

- Do not use this product in direct sunlight, in extremely hot or cold environments, in humid, dusty or wet environments.
- After use, always disconnect the plug from the electrical outlet. Do not pull, bend or twist the cord; damage to the wiring may cause malfunction, electric shock or fire.
- Do not short-circuit the connectors. It may cause malfunction, electric shock or fire.
- Keep this adapter unplugged when not in use.
- Do not cover or wrap the product with a cloth. This could result in deformation of the product or in fire.
- Never use chemicals, cosmetics, any petroleum solvents such as paint thinner, or neutral detergent on the product. They may deform and damage the product.
- Do not store the product in wet or high humidity place, to avoid mold, rust, corrosion or malfunction.

How to Use

- This product must be connected to a SEA&SEA LX-33 video light.
- For details regarding battery recharging, read the instruction manual packaged with SEA&SEA LX-33 video light.

The rated input voltage for this AC adapter is 100-240V and can be used in any country. However, the AC power cord included with this product package cannot be used in countries where the supply voltage is more than 125V. Bring the appropriate AC power cord and conversion plugs necessary for your trip. Contact your travel agent for relevant information.

Specifications

【Rated input】	AC 100-240V
【Rated output】	DC15V 2A
【AC power cord rating】	AC125V 7A
【Operating temperature】	0-40°C / 32-104° F
【Construction】	Polycarbonate resin
【Weight】	Approx. 240g / 8.4oz *not including cord
【Dimensions】	58 × 34 × 95mm / 2.3 × 1.4 × 3.8inch (WxHxD) *not including cord and projections
【Accessories】	AC power cord, Instruction manual

This device complies with Part15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, (2) this device must accept any interference received, including interference that cause undesired operation.

* Specifications and appearance are subject to change without notice.
